

This CPD seminar entitles you to 1 formal CPD point. Please be aware you are required to manage your own CPD records. We will provide you with your participation certificate and answer sheet once you have attended the full seminar.

UNDERSTANDING SECTION J NCC 2019 FOR WINDOWS AND DOORS

Proudly supported by

1. What are the 2 Performance Metrics to meet Section J under DtS?
2. When calculating the U-Value Performance of a Wall-Glazing Construction element, should we calculate for thermal bridging? Yes or No
3. Which has a lower SHGC? A Typical wall or a Typical window?
4. Can an operable shading screen be used to reduce the SHGC requirement in Section J NCC 2019?
5. Why are the Section J performance requirements higher in an Aged Care facility than a School?
6. Where the wall is less than 80% of the wall-glazing construction, what is the minimum R-Value requirement?

At the end of this panel, attendees will be able to:

- a) Identify and apply the new requirements for External Facades in NCC 2019
- b) Evaluate and apply knowledge about the performance of windows and walls
- c) Define the impacts of different products on overall facade performance
- d) Define the impacts of NCC 2019 on building design and apply to future projects
